

What is it like working at Thomas's Clapham?

I enjoy working at Thomas's because every day is different. The children are so full of life; I never know what a new day will bring. **Year 4 teacher**

I have just started working at this very busy and exciting place. I love the way everyone here is so helpful and energetic. There is an amazing atmosphere where high standards are common place and inspiration is infectious...from both teachers and children! **Subject Leader**

A dynamic, forward thinking, creative and fun place to work. Lots of energy needed, but fun always to be had. A great team of colleagues who really look after each other and become life-long friends. **Senior Leader**

There is nothing more rewarding than working in an environment that is professional, dedicated, caring and passionate, all of which I encounter every day. It is a place of learning where you are challenged to produce your best and where you can inspire and be inspired by all member of the community. **Upper School teacher**

I love working at Thomas's as no two days are ever the same! To work at Thomas's is to be part of a large family. **Member of the support staff**
